

FREE

OPEN

SURE

(A practical
guide)

software

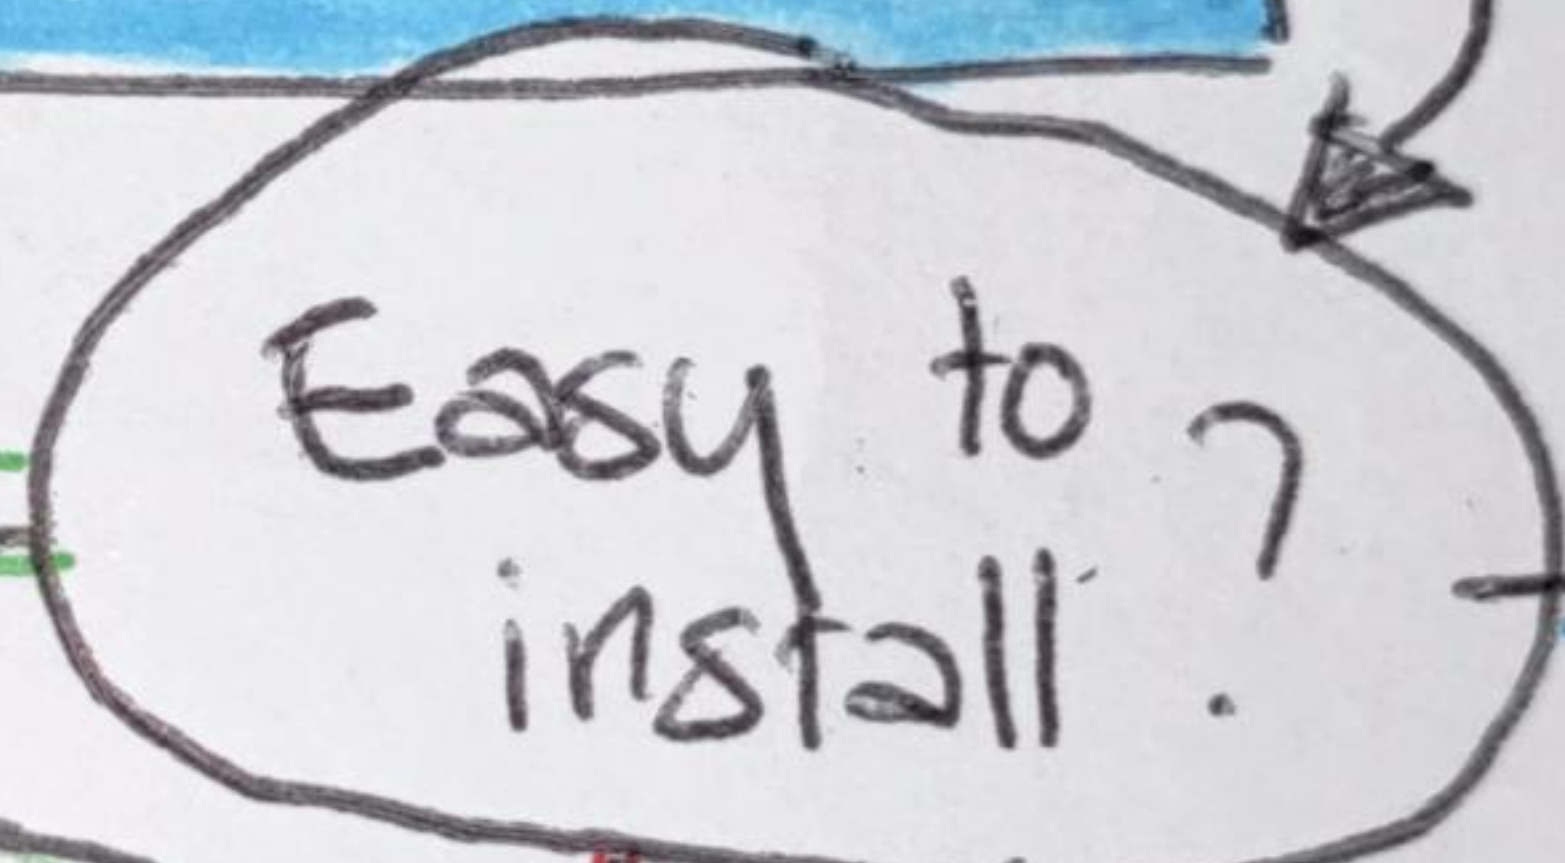

The OS

1. Fuck Windows

2. Install Linux

Which one?

Yes

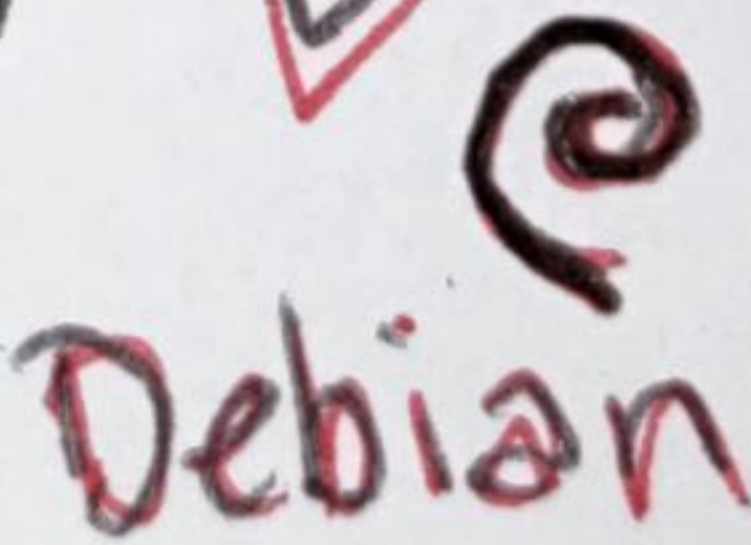

No

Easy to install?

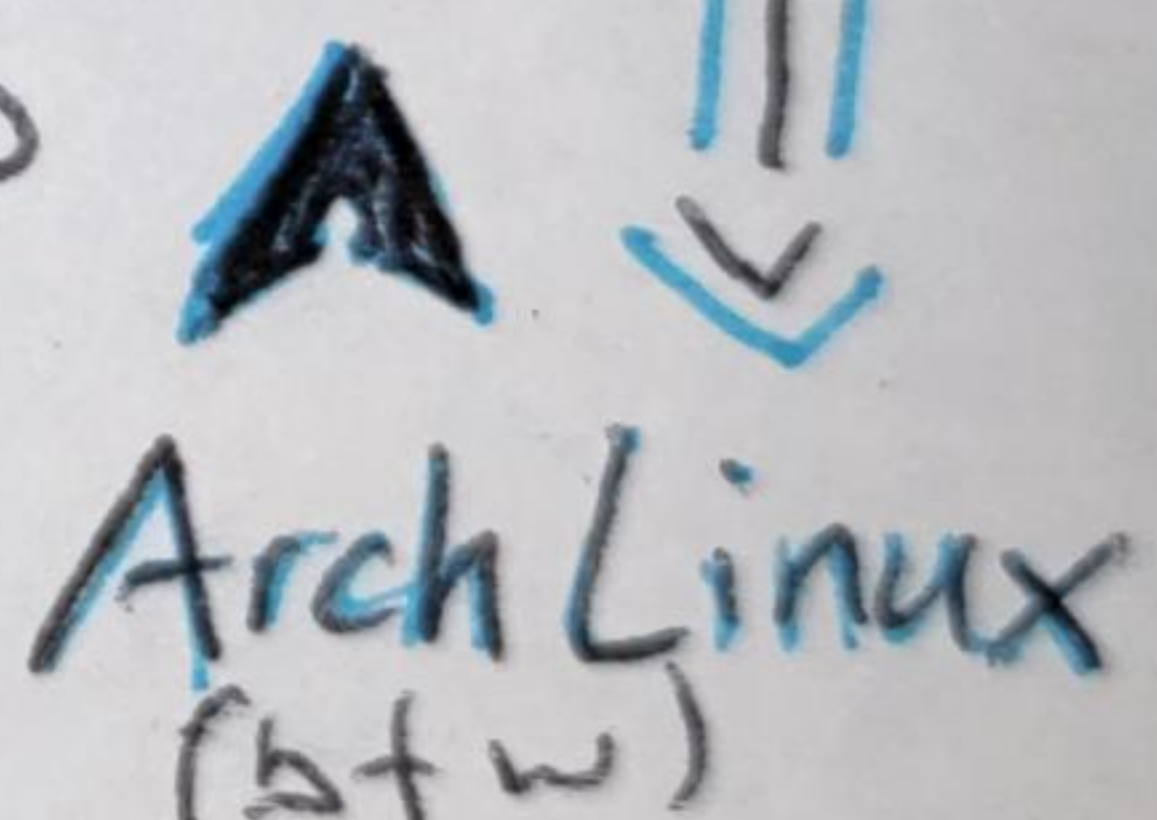

50/50

Linux Mint

Debian

Arch Linux
(btw)

90% of the Rest u can tweak
in any of these

Some other SW you
should replace ↻ ↻

MS Office

LibreOffice/
OpenOffice

AI/ChatGPT/Claude

Ollama

Photo-
shop

GIMP

Autodesk/Maya

Blender

iOs

Android,

Sailfish

Chrome/

Firefox,

Edge

qutebrowser

& many
more.

3 Rules about

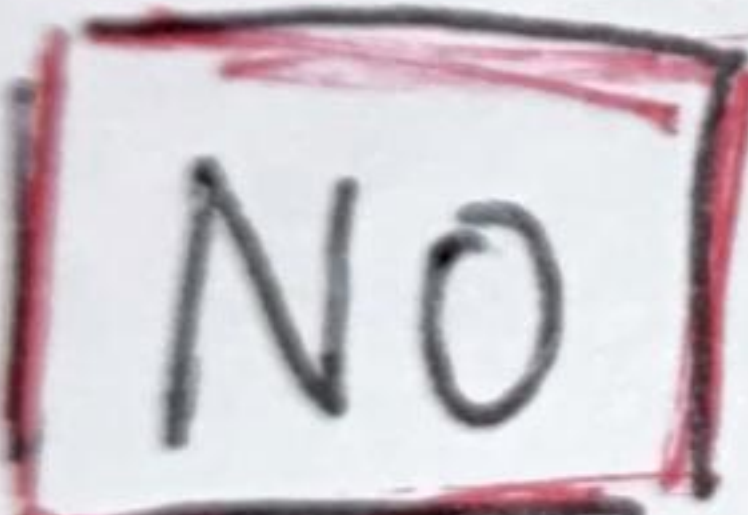

F O S S

1. Check the License
(or die tryin')
2. It's **FREE** as in
"free speech" not
"free beer" 
3. Star, thank and/or
support the *
creators/maintainers

Social Media + FOSS
=> Fediverse

Fediverse is (mostly)
used for social
media. (i.e. Mastodon)

 NO Ads

 NO Algorithms

 NO AI (mostly)

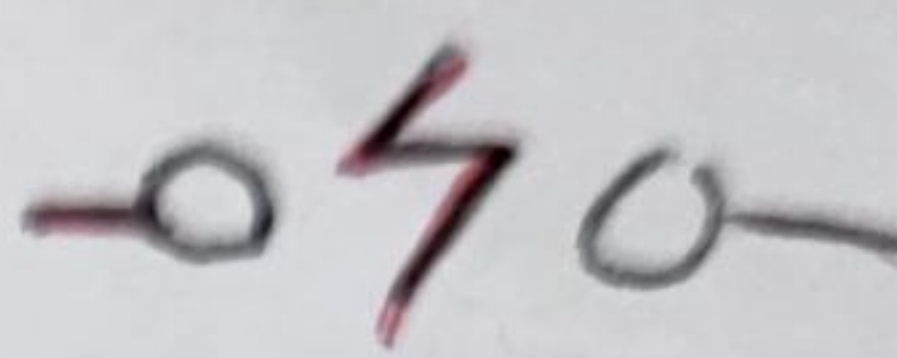

NO Tech Overlords

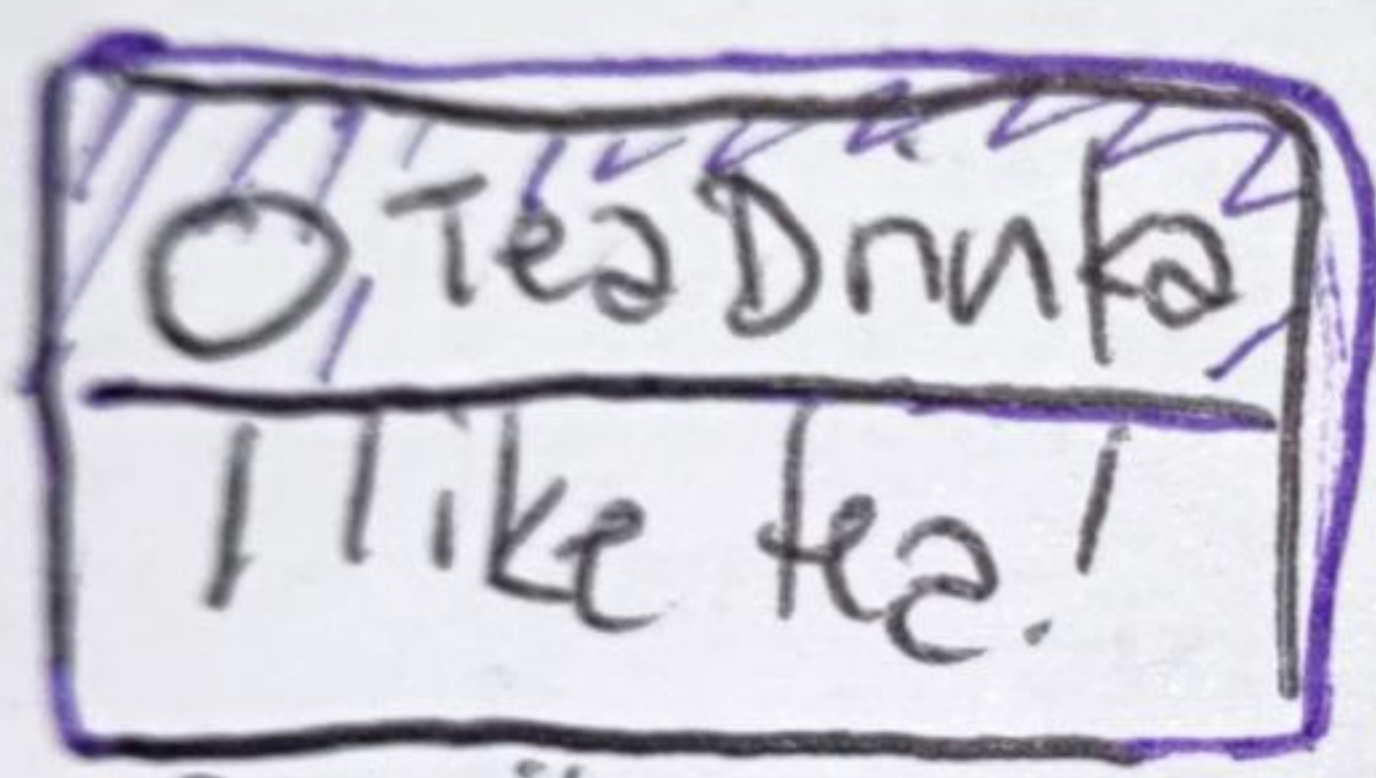

Fediverse Example: Mastodon (like twitter)

Everyone (incl. U!)
can host their own
(FOSS) Mastodon server
or join a public one.

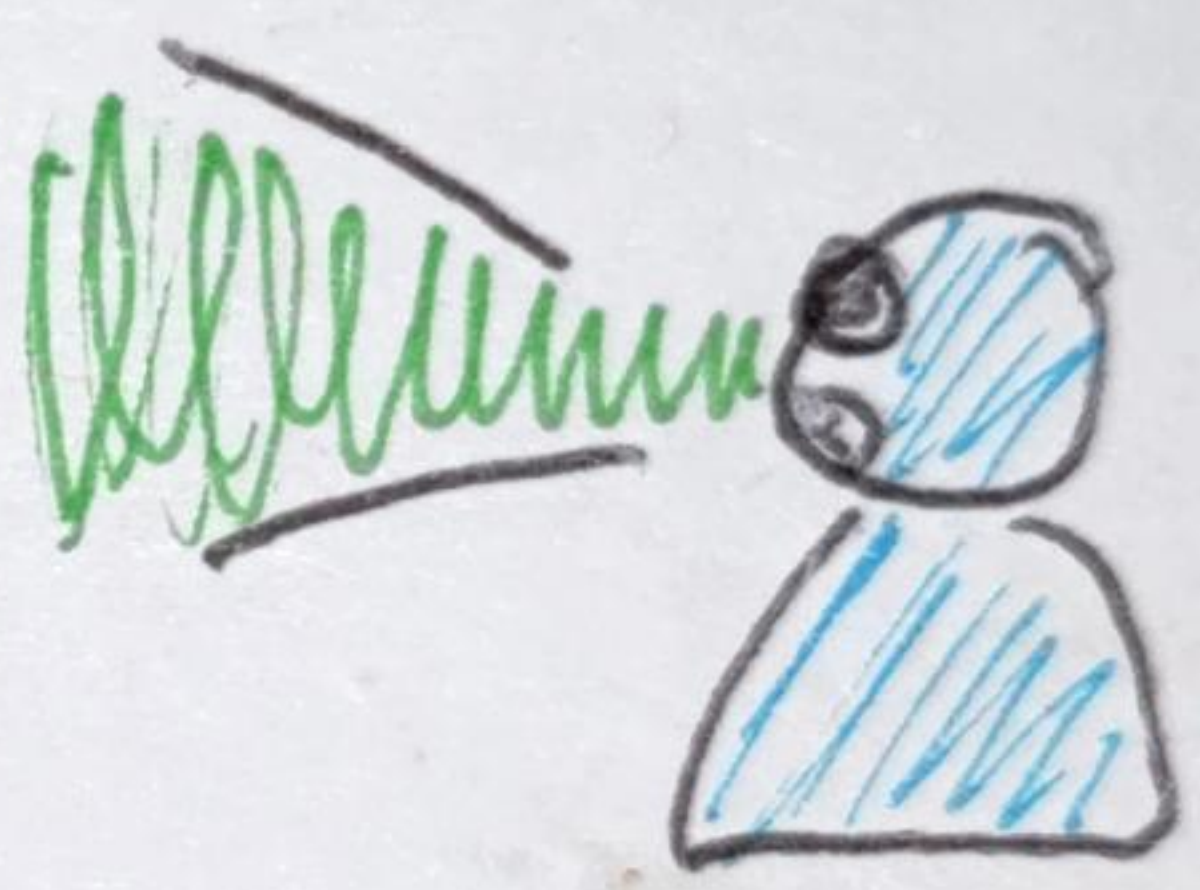

Server Admins can decide to connect 

OR BLOCK 
other servers.

O, Tea Drinka
I like tea!

@chill.tea

You

If a server is not
(or blocking you)
blocked you can see
their posts and they can
see yours => **FEDERATION**

More resources:

- Join Mastodon, find a server: joinmastodon.org
- FOSS Licenses: opensource.org/licenses
- Find (FOSS) alternatives: alternativeto.net

LET ME KNOW WHAT YOU THINK OF THIS ZINE VIA MASTODON:
